

REQUEST FOR PROPOSALS FOR THE SUPPLY, DELIVER, INSTALL, COMMISSION AND MAINTAIN 2 X LARGE TUNNEL DUAL VIEW X-RAY MACHINES FOR DUBE TRADEPORT CORPORATION REF NO.: DTP/RFP/21/CAR/10/2016

Dube TradePort Corporation (DTPC) was created as a provincial public entity to develop Dube TradePort. Refer to <u>www.dubetradeport.co.za</u> for more information on DTPC.

DTPC's Cargo Operation is regulated by the South African Civil Aviation Authority (SACAA) in terms of Part 108 of the Civil Aviation Regulations. One of the conditions of DTPC's operating license, granted by the SACAA, is that all air cargo is made secure for carriage by air through the application of South African Civil Aviation Authority approved security protocols.

DTPC currently uses X-Ray Screening technology as its primary means of identifying items that could compromise / pose a threat to aviation safety / security include narcotics, contraband materials, weapons, explosives, dangerous articles, hidden or undeclared dangerous goods, and other substances & devices in baggage/packages/cargo tendered for carriage by air.

DTPC invites suitably experienced and accredited service providers to supply, deliver, install, commission and maintain 2 x large tunnel dual view X-Ray Machines for screening of palletized and smaller cargo.

The minimum tunnel size should accommodate an AKE ULD; Preference would be a tunnel size closer to 2000mm in height and 2000mm in width.

The purpose of the equipment is to effectively screen cargo tendered for carriage by air, and thus need to meet applicable legislated requirements and standards, including South African Civil Aviation Authority approval, TSA approval and EU and UK standards.
